FIRING ON THE PICKET LINES.

Over a Thousand Men Now at Work Under the Protection of the Militia-Operators Hopeful-Miners Soliciting Aid-Kausas Miners Suffering For Food-Obia Miners Will Shind Together.

Pocanontas, Va., May 15.—Governor O'Ferrall returned to Richmond yesterday evening. He made a thorough investigation of the troubles here. He is satisfied that the presence of troops was necessary to preserve erder, and says they will remain as long as the condition now existing continues. His persistence in keeping the unlitary here is bitterly contested by local men. West Virginia miners are closely watched, as firing on the picket lines has increased. The military duty has been especially severe on account of the cold weather, and it has been necessary to relieve the men by ordering new companies.

In an interview with Colonel May, attorney for the Norfolk and Western company, he says the situation is decidedly promising for the operators, and that the mines here will be kept at work and the militia will remain all summer if the attitude of the West Virginia

miners remain the same. There are at least 1,000 men at work at the Browning mines and 360 in the Southwest Cold company. Colencl. Browning says that in less than a week his output wall be greater than ever and the output from this place will be as great as it has been. Seventy cars was

The miners held a big barbecue at Keystone, W. Va., yesterday, and steps are being taken looking to an adjustment of their difficulty. It is reported here that ex-President Kumball of the Norfolk and Western will meet the operators to agree upon terms during the week.

BOILER BLOWN UP.

Five Men Killed and Three Others Fatally Injured.

WEST BINGHAM, Pa., May 15 .- Yesterday afternoon the bodies of eight men, harribly mangled, scalded and disfigured, were picked out from among the ruins of the Peck, Haskee & Coobs sawualt here, the victims of the exprosion of the boiler in the mill. Five were dead, and two of the three others have since died.

Those kited outright were Claude English, James Mowers, Eugene Merrick, Lyman Perry and Charles Rover. Caleb Converse was badly sealded about the head and chest, has since thed, Albert Detiroat was so fearfully

manugled by botter from that he soon died and Beli Gridley was injured internally and sustained a broken leg, but he will recover. The mill was run by steam, generated in an old 80 norse power boiler, which it is reported, had been 'condemned by

an inspector few days before because

the steam grage failed to record accurately the amount of steam pressure. Tiurteen men were en doyed in the mill. Yesterday morning they were busy at work when a belt broke, shutting down operations. While it was being repaired, nobody paid any attention to

denly there came a boom as of a caunon, followed by a cloud of steam, dust and smoke, which rose high in the air.

Four of the victius were torn limb from limb and their remains scattered about the mill and the immediate vicinity. The mill was almost entirely demonshed. Parts of the boiler were blown inudreds of feet. The victims were horribly mangled, having their heads crushed to a jelly and being recognizable only by their clothing. The dead workmen were all married and had families.

WAGES INCREASED.

Twenty-Five Thousand Men Made Happy by the Carnegle Steel Company.

Pittsnurg, May 15.—The board of managers of the Carnegie Steel corepany decided last night to advance its 25,000 men 10 per cent, the raise to take effect on Jane 1. The notices which will be posted in all the mills read as

Notwithstanding the existing contracts between the Curnegie Steel company and its employes, flxing the rate of wages for  $1895_{\rm c}$  this association has decided that the present business outlook will justify higher rates, and accordingly take pleasure in notifying its employes at the Edgar Thomson furnaces, Edgar Thomson steel works, Duquesne steel works, Homestead steel works, Lucy furnaces, Keystone bridge works, Upper Union mills, Lower Union mills and Beaver Falls mills, that from June 1, 1895, and until further nothe, the scale rates paid to all tomage, day and turn men, will be increased 10 per ceut; this without prejudice to the 1895 wages contracts still in force.

By order of the board of managers, H. C. Fuick, Chaidan. This action is entirely opposite to what members of the board gave out atter Saturdan's meeting on the demand for an increase made by the furnage men at the edgar Thomson furnaces. At is enamed, however, that Mr. Frick

calded to Audrew Carnegie in Engla, 4, and that the increase was first saggested by Mr. Carnegie.

It is not known what effect this action will have on the fight of the Amatgamated association in other muls. Outside manaracturers, chain that in many iustances the Carnegie scale is 50 per cent lower than the Amaigamated scale but this can not be determined accurately by reason of the fact that the unproved machinery of the Caruegie coarpany's malls gives the men much greater earning power than in other indes. British Vessels Will Enter Bering Sen in Bellance of the United States.

Washington, May 15.—An ugly crisis has been reached in the negotiations bytween the United States and Great Britain looking to the adoption of umform regulations for the government of the sear fisheries this season. The Brdish government positively refuses to reenact the regulation of last year which prohibits the carrying of lireaums oy scaling yessels through the zone north of the thirty-lifth parallel during the ciosed season.

The United States officials look upon this as disastrous to the seal fisheries, holding that the result will be to relieve the peragic sealers of the only restriction which has operated to prevent an nulmuted slaughter of the herds. While kilong by firearms remains illegal, it is realized that it will be impossible to enforce this prohibition if arms can be freely carried, for the sealers would kill freely unless they should happen to be under the very eye of a revenue cutter. Meanwhile the United States cutters have gone out under the old instructions to seize all vessels carrying urms not under seal. These must be modified speedily by orders sent through the Alaska Commercial company's steamer, which leaves San Francisco in a day or two or else there may be another big chain for damages on account of illegal seizures filed by the British government.

The attitude of the latter is viewed with much dissatisfaction at the state department where it is regarded as an evidence of unwarrautable concossion to the Canadian pelagic scalers. It is also held that the effect of the British uction is to practically nullify all measure of protection for the seals that was conferred by the Paris urbitration, and it would not be surprising if this course is persisted in if it resulted in a declaration by the United States of the abrogation of the treaty.

### IN MEMORIAM.

To the memory of Darius Norris, of Germantown, Ky., who passed from his earthly home to a heavenly one, May 3rd, 1895, these lines are inscribed by one who was atone time an inmate of his home, who valued him as a friend, and respected and revered him as a gentleman and a Christian:

respected and revered him as a gentleman and a Christian;
A brave, true soul has passed away Beyond the confines of earth's day, Stipped into sitence none may know, Save those who stem the river's flow—The swift, eath stream which sweeps so near, That trembling mortals almost hear It's rashing current dark and cold, Bearing its freight of earth-worn sonis. A nean who lived and walked upright, A foe to wrong, a friend to right, who loved his neighbor, teared his Lord, And day hy day obeyed His word. A heart so genial, true and kind Shall only serve to closer blud. The loved ones feit to walk alone. We cannot see, we cannot know Just how or where our lost ones go, We only feel the chill heart-pain 'Mid blinding tears that fail like rain, But He, who knoweth what is best liath called them to "eternal rest," And bids as wait in patient trust, And bids as wait in patient trust, Nor seek to question what is just. And so our triend who passed from earth 'Mid fairest spring time's vernal birth, Hath only forged a chain of gold. That inks us nearer to the hold. That inks us nearer to the stair Benesth the Shepkerd's watchind eare, Who whispered in his ear. Well done. Thy march is o'er, the victory won." Then shail we stand with buted breath And whisper "he is then, O douth?" Ah no; for far beyond the chill and gloom fle passed into a land of song and bloom, And there awaits to welcome home. The loved ones who must surely come, question what is just The loved ones who must surely come, To join him hi that land noknown Where angels sing around the throne.
